Exceptional Service from Outstanding People

Personal Injury professionals

How can we help?

The Personal Injury Team at Mayo Wynne Baxter know that if you've suffered an injury as a result of the negligence of another, there is a strong possibility that you are entitled to make a personal injury claim.

Personal injury compensation claims can be complicated. Our team of skilled personal injury solicitors are committed to quickly pursuing your claim, with the sole intention of achieving the best possible outcome for you and maximising your injury compensation.

Your injury may have been suffered in your vehicle or in your workplace. Whatever your situation, we will apply our expertise and forward thinking to ensure that your personal injury claim is managed and resolved in the best feasible way.

Our Personal Injury Team comprises of vastly experienced solicitors, with members of the team belonging to the Law Society's Personal Injury panel and the Association of Personal Injury Lawyers (APIL).

We comply with the APIL Charter which establishes a code for best practice in personal injury claims. We can advise you on:

- Funding
- Accidents at work, on the road or in public places
- Brain, spinal and other serious injuries.

What compensation is available?

Compensation for personal injury may include compensation for pain and suffering (including psychological damage) as well as financial loss such as:

- Loss of past and future earnings
- Rehabilitation costs
- Care since the injury and in the future
- Medical expenses and prescriptions
- Equipment/transport needs
- Adapted housing needs
- Reduced employment prospects

We have experience of claims from £5,000 to over £5 million.

Catastrophic Injury Unit

The dedicated Catastrophic Injury Unit consists of a team of specialist solicitors who specialise in complex brain and spinal injury claims, and who possess a wealth of experience in working with children and adults with these conditions.

Our many years of practice in catastrophic injury and clinical negligence litigation, has given our brain and spinal injury lawyers a clear and precise understanding of the complex medical and legal issues associated with claims of this nature.

We have developed an extensive network of industry experts, including barristers, medical practitioners, care experts and case managers who work closely with our team of spinal and brain injury lawyers.

We recognise that the culmination of a claim with an award of compensation does not mark the end for either the claimant or the claimant's family. Brain injured claimants will often be awarded considerable sums of money that require careful investment to ensure that their various needs are met.

In some cases the injury will leave the claimant unable to deal with their financial affairs. In these cases we offer a Deputyship service whereby we will shoulder the considerable burden of managing the injured person's financial affairs.

Time limits

With any personal injury claim there are time limitations and you only have a certain period to make a claim - this is usually three years from the date of the accident or negligence or omission (but not always - so check with us).
